## FRIENDS OF WHITE'S WOODS SPONSORS WEBINAR OCT. 22 ON HEALTH OF WHITE'S WOODS

The Friends of White's Woods, Inc., will hold a webinar Oct. 22 on an analysis of the health of White's Woods.

The presenter of this webinar will be Michael T. Wolf, a consultant forester hired by FWW to analyze and assess the draft Stewardship Plan on White's Woods prepared by the White Township Board of Supervisors. This draft plan recommended the rototilling of the woods to remove invasive species and the timbering of the woods in seven-parcel increments. Wolf's presentation to the supervisors at their July 22 meeting stated that the woods are in good health and no immediate drastic measures needed to be taken to improve that health. Wolf said that the strong overstory indicated a very healthy soil, concluding that "White's Woods is as beautiful as any I've seen in my career."

Wolf's career spans some 20+ years since his graduation from Penn State's forest science program with a minor in environmental resource management. Wolf is currently a forestry consultant with Appalachian Forest Consultants of Stoystown. He has worked with the Penn State Cooperative Extension Service as a forestry educator covering a nine-county area.

The public is invited to attend this webinar, conducted via ZOOM, from 4 to 5 p.m. If you wish to attend, please email: [Info@friendsofwhiteswoods.org](mailto:Info@friendsofwhiteswoods.org) to receive the Zoom link Oct. 22. There will be a question-and-answer period at the conclusion of Wolf's presentation.
